Firefox® Browser

How to set Firefox® to search the internet without leaving a trail:

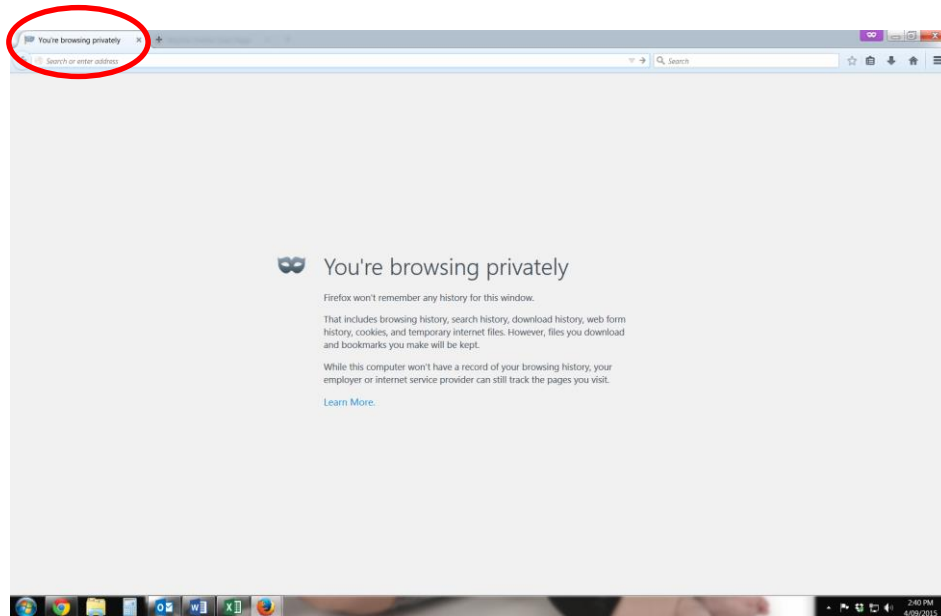

1. Click on “Settings”:

2. Click on “New Private Window”:

3. A new Firefox® window will open. It will say “You’re browsing privately”, but remember to close the window once you have finished browsing:

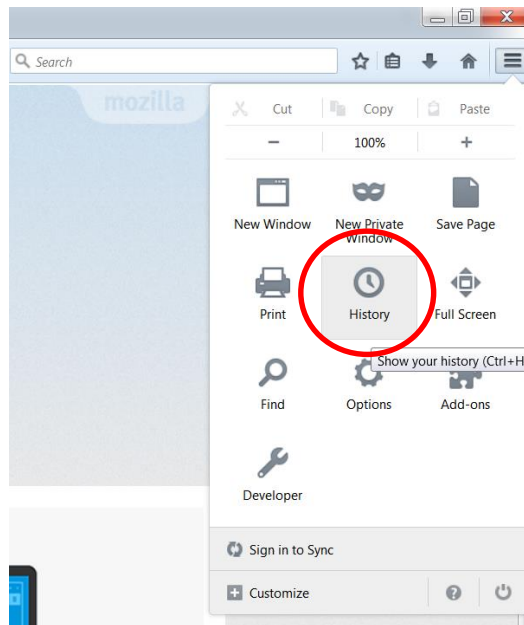

How to delete your browsing history in Firefox®

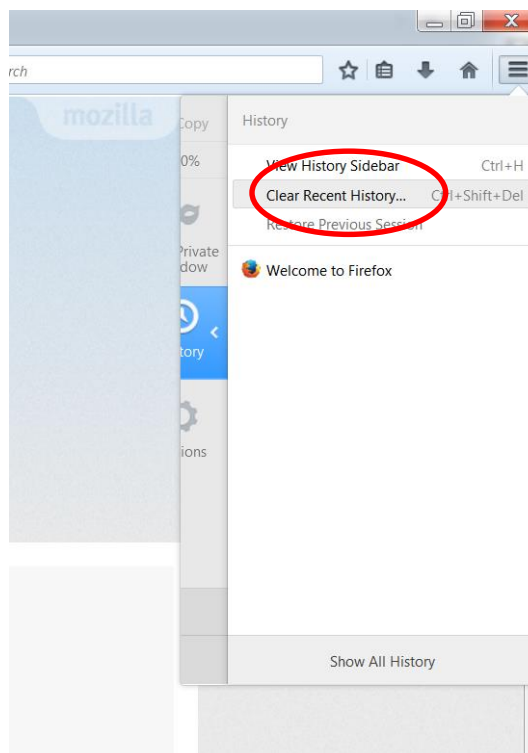

1. Click on “Settings”

2. Click on “History”:

3. Click on “Clear Recent History”:

- Using the drop down menu, select how far back you would like to clear and then click on "Clear Now":
