

TECHNOLOGY SAFETY BY DVCS

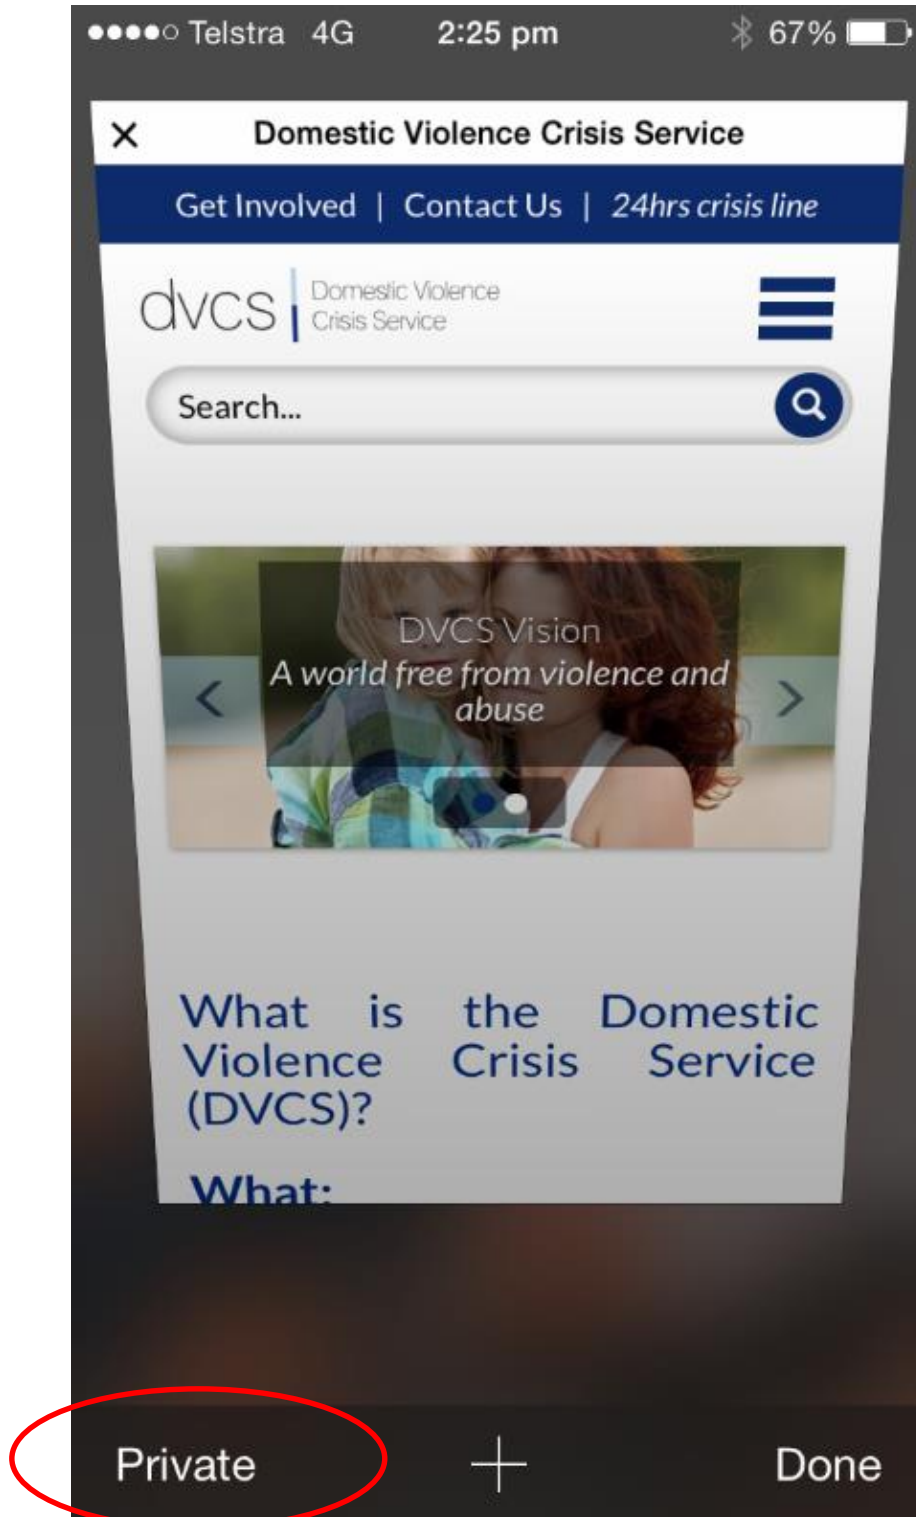

iPhone® & iPad®

How to set Safari® to search the internet without leaving a trail:

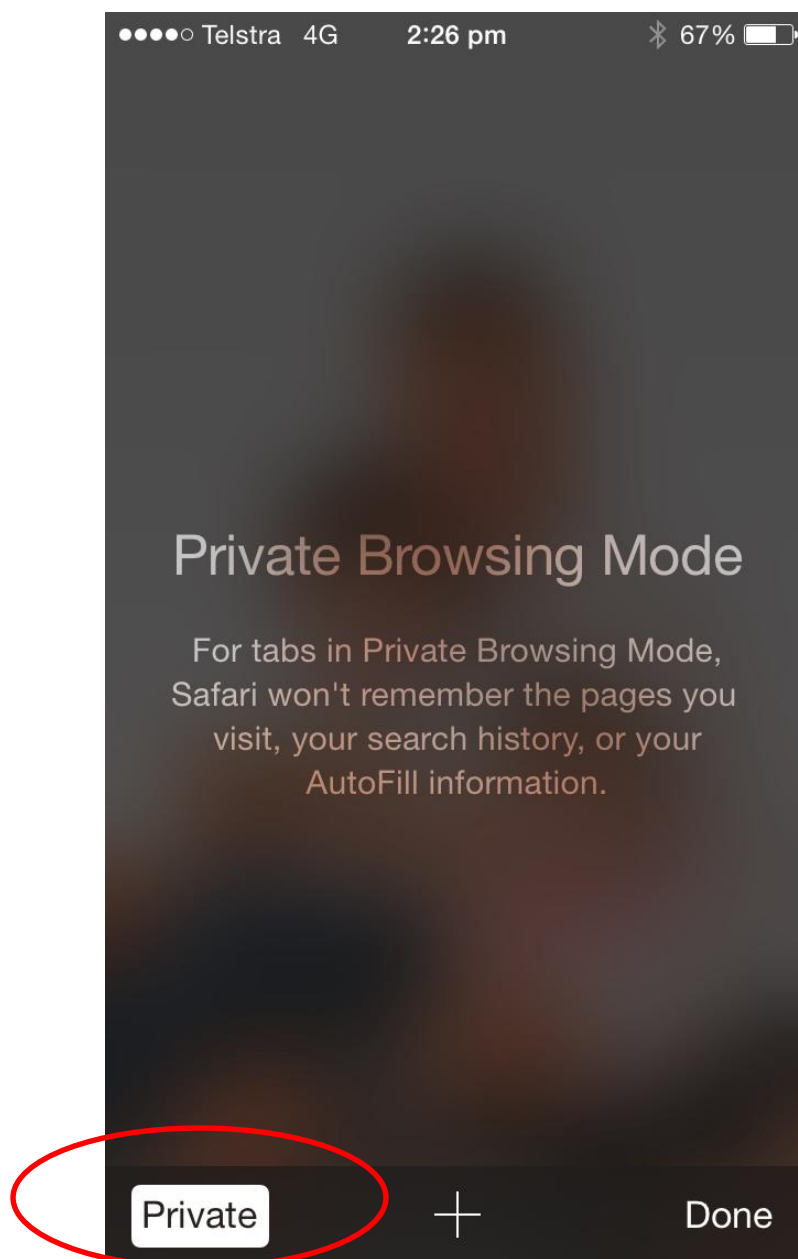

1. Click on the two squares at the bottom of the page:

2. Click on "Private":

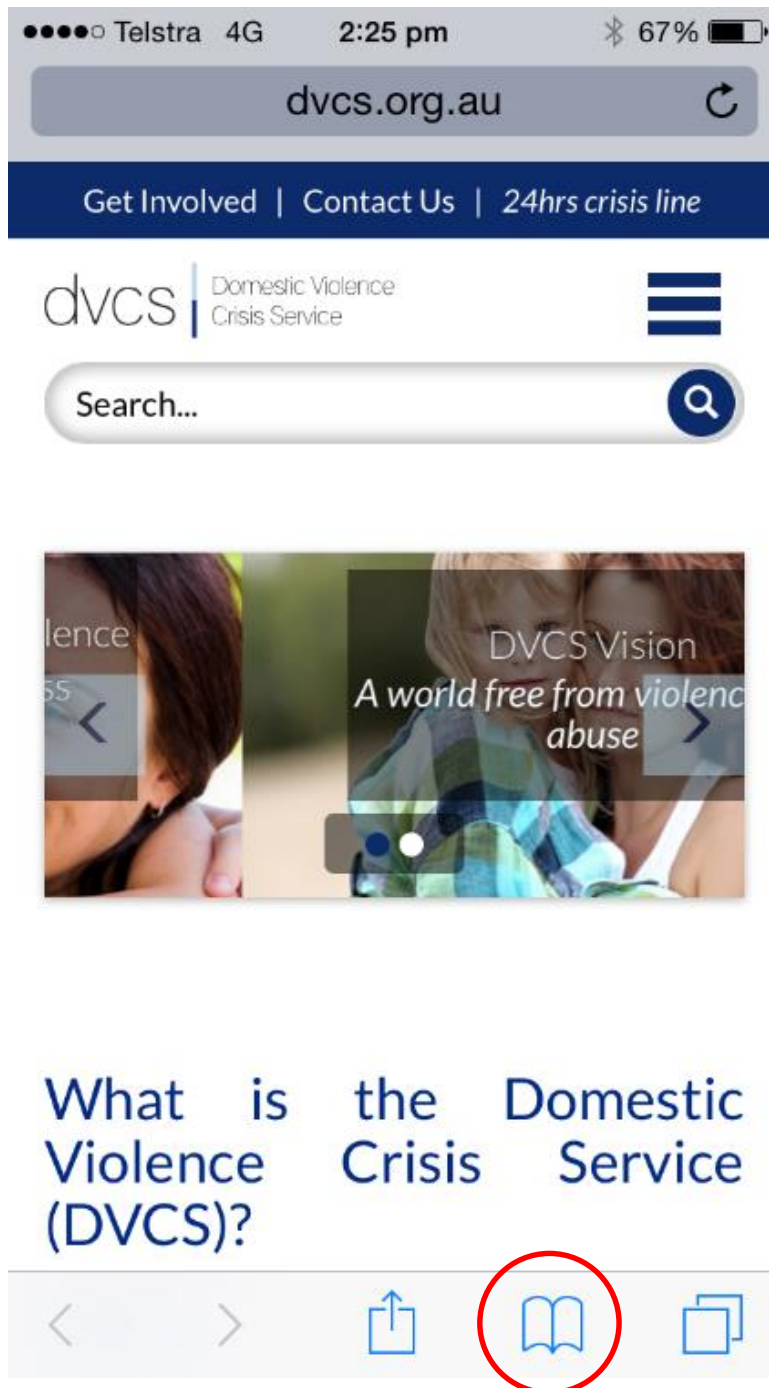

3. You are now browsing in Private Mode. When the “Private” button is highlighted, you are browsing in Private Mode. If you want to stop browsing in Private, simply click on “Private” again.

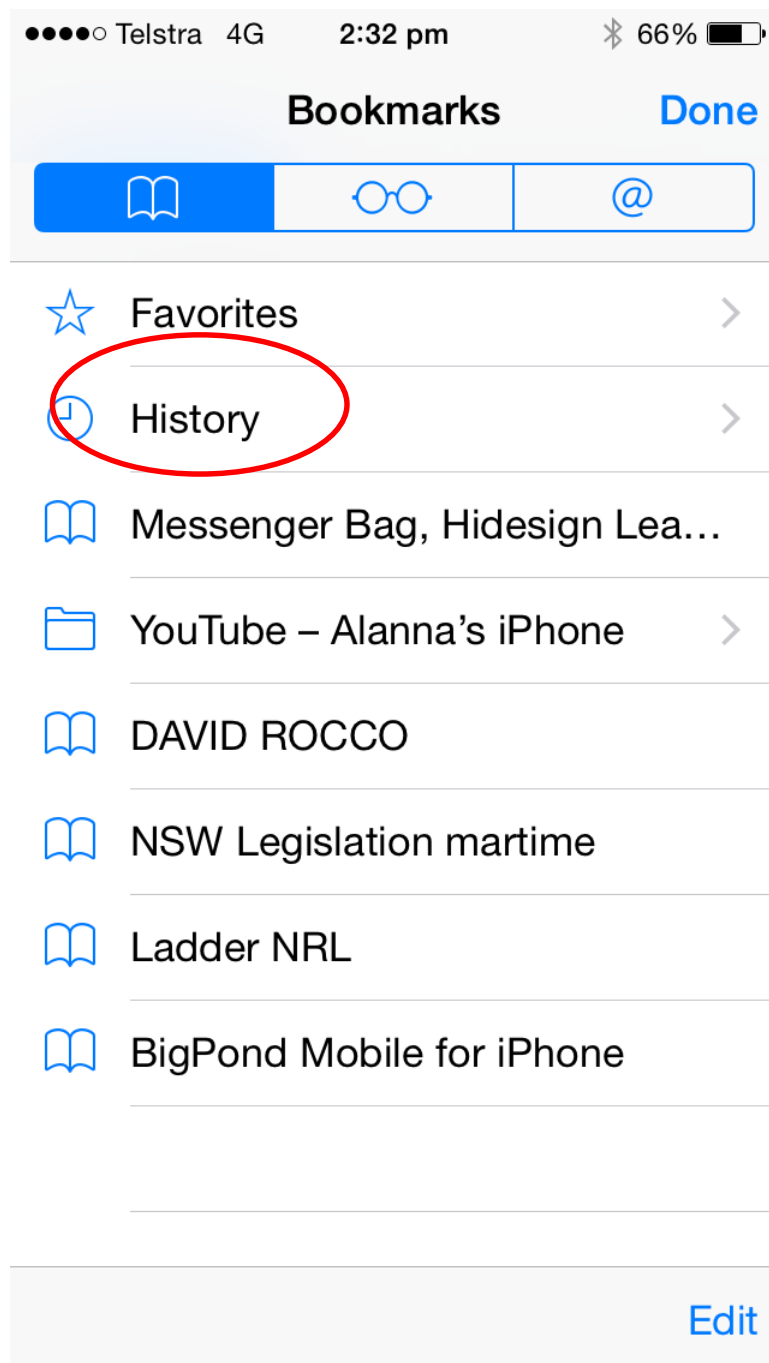

How to delete your browsing history in Safari®:

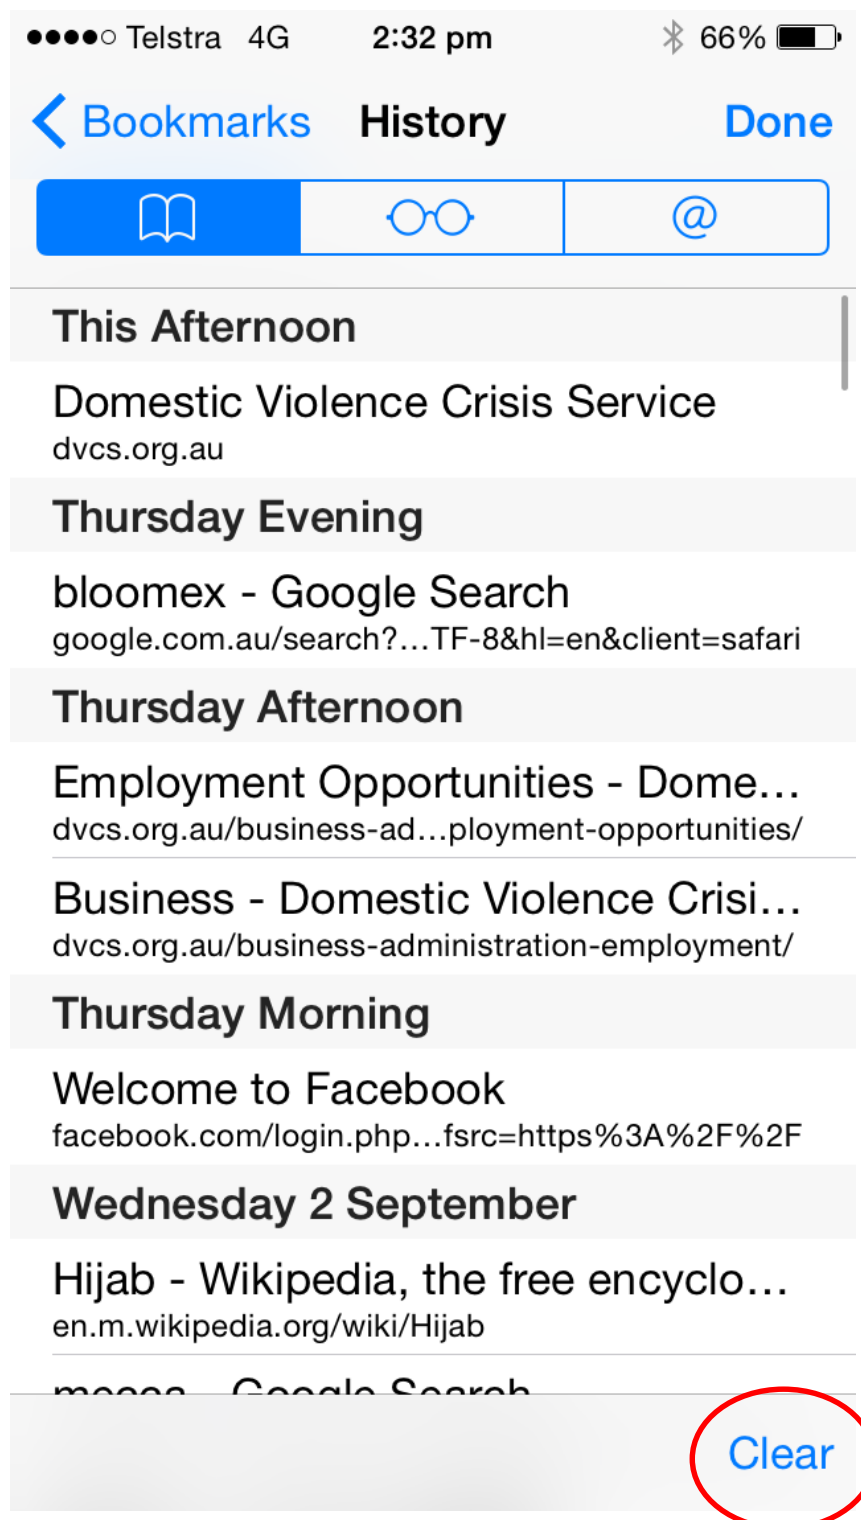

1. Click on the book icon:

2. Click on "History":

3. Click on "Clear":

4. Select how far back you want to clear:
